Noah Francis Johnson releases new single '**FIRE**' taken from his second studio album '**TIGERBAY**', available June 15th 2015 on **Last Ten Records**.

Given his musical journey through Soul, Rock, Folk and Blues, Noah has been influenced by a wide range of styles and great artists such as **Bob Dylan** and **Marvin Gaye**. This has enabled **Noah Francis Johnson** to traverse musical genres with ease. The single '**FIRE**' is his latest manifestation of music with no boundaries.

This has been a successful year for Noah Francis Johnson's musical career. Since his debut album **Life & Times** and his recent E.P **Harvest Tree**, **Noah Francis Johnson** has enjoyed national and international recognition with increasing awareness and accolades from **Quincy Jones** and **Jean-Michel Bernard** (a long-time collaborator of Ray Charles) who has publicly likened Noah's delivery to **Ray Charles**. This has all coincided with continued worldwide media coverage from the **BBC, T.V and Radio networks in Europe and the UK** and one of the UK's biggest publications naming him as 'one to watch' - **The Independent**.

The song is co-produced by **Chris Kimsey** (**Rolling Stones**, Peter Frampton, Jimmy Cliff) and **Noah Francis Johnson** himself. Recorded at **Abbey Road Studios**, the song was mixed by **Rob Hill** (**Korn, Cypress Hill**) and features great musicians including drummer **Andy Treacey** (Faithless), lead guitarist **Paul Stacey** (Oasis, Black Crows), rhythm guitarist **John Robertson** (Morceeba), classical cellist **Nihan** (Muse) and Jazz Pianist of the Year **Paddy Milner** (David Gilmour, Van Morrison). The accompaniment of the **L.A. Gospel Choir** singing in the outro chorus brings the record to its ethereal crescendo.
