

# Enjoy East London's 'Hackney Sunrise' with Kat Reyes' New Single

Artist: Kat Reyes  
Single: 'Hackney Sunrise'  
Release Date: 31st March 2017

Hackney-based Indie-pop artist, **Kat Reyes**, is releasing a new single '**Hackney Sunrise**' as an all new independent release for the **31st of March**. Having been relentlessly filling venues all across **London** such as, **The Camden Assembly Rooms**, **O2 Academy Islington**, **Proud Camden**, and featuring in landmark live sessions with **Concentus Music** at London's **The Islington**. **Kat Reyes** has managed to grab the attention of esteemed music producers, most notably being handpicked by **Paul Eastman** to record at his personal home studio in **Denmark**. Famous for recording and building big names such as **Duffy**, **Paul Eastman** has brought a new flavour to his portfolio with **Kat Reyes** and '**Hackney Sunrise**', something he's confident will go far in London's present music scene.

With influences ranging from the lyrically inclined **Bob Dylan** and **The Smiths**, all the way to modern indie writers, **Alex Turner** and **James Bay**, **Kat Reyes** has developed a light-hearted but liberating sound; taking her influences and creating something honest and new. By combining an indie rock sensibility with progressive pop hooks; '**Hackney Sunrise**' is the rare single which inclusively presents foot stomping pop music from a down-to-earth; girl-next-door perspective; staying authentic and sincere yet creating something big and memorable.

Being somewhat of a wallflower growing up, **Kat Reyes** used her music to express herself and come out of her shell as the now vibrant singer-songwriter she has become. **Kat Reyes** has come a long way, from not being able to finish shows due to her shyness, all the way to being invited to play festivals in **Shoreditch** and exclusive shows in **Manchester**. **Kat Reyes** is planning to transcend the competitive live circuit of London's music scene with this anthemic ode to **London's North East** counterculture. Experience a 2017 '**Hackney Sunrise**' now.
